

MD KAZIM

Java Developer · Spring Boot · Hibernate/JPA · Fintech & Capital Markets

Mumbai, India 400043 | +91-8368471473 | mdkazim987@gmail.com | 3+ Years Experience · NSE (National Stock Exchange)

Java Backend Developer with 3+ years of experience building secure, high-performance enterprise applications in the capital markets domain. Strong in core Java, multithreading, socket programming, and event-driven systems, with a track record of writing reliable, production-grade code. Passionate about solving complex performance and scalability challenges.

EXPERIENCE

Consultant-Systems Analyst

Dec 2022 – Present

NUSUMMIT (formerly NSEIT) — Vendor to **NSE (National Stock Exchange of India)**, Mumbai

- **SecPledge:** Developed and maintained SecPledge, a reporting system generating security pledge reports for trading members and custodians. Handled two report types: Member and Custodian, ensuring accurate pledge data delivery. Upgraded the logging framework from Log4j 1.1.7 to Log4j 2.20, enhancing application monitoring and performance diagnostics.
- **Performance Optimization:** Cut a legacy Java app's data-retrieval time significantly by migrating from flat-file reads to bulk database queries (Oracle), replacing hundreds of individual record fetches with set-based operations — enabling the system to scale with growing trade volumes.
- **Electronic Gold Receipt (EGR):** Led front-end development and system changes for NSE's EGR segment — a new gold-backed asset class with independent collateral management; delivered functional requirements, process design, and CM-side changes with NCL clearing integration.
- **Delivery & Mentoring:** Delivered new segment go-lives under tight regulatory deadlines with no post-release defects, working directly with NSE stakeholders on requirements and design walkthroughs. Mentored junior developers on the collateral codebase, socket architecture, and .dat processing flow.

Job Responsibilities:

- Coding and Unit Testing of application
- Defects fixing.
- Involve in daily meeting with team.

TECHNICAL SKILLS

Core	Java · Spring Boot · Spring Framework · JSP · Servlets · OOP · Multithreading · Socket Programming · CICD
Messaging	TCP/IP · REST Web Services
Database	Oracle · MySQL · Query optimization
Frontend	JavaScript · HTML
Tools	Git · Postman · IntelliJ IDEA · Eclipse · Visual Studio · Linux · Windows
Methodologies	Agile · Code Reviews · Unit Test Planning · Performance Profiling · Stakeholder Management

EDUCATION

B.Tech. Computer Science Engineering

Aug 2022

Rajiv Gandhi Technical University, Bhopal
